**EPF-VFP-10-XX-SP0011**

**Aluminum Wall Mounting Bracket for EPF-VFP-10 series Explosion Proof Fans**

**Product ID: 278434**

**Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).**

**Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.**

The EPF-VFP-10-XX-SP0011 is a wall mounting bracket for EPF-VFP-10 series explosion proof portable fans. This bracket is used to convert existing EPF-VFP-10 series portable fans into a permanent wall mount circulation fan. The wall mounting bracket is constructed of non sparking aluminum and powder coated with a two part heavy duty black powder coat finish. The rubber feet on existing fans are removed and the feet mounting holes are used for securing the fan to the wall mount bracket. When installed, the fan will be parallel to the wall for providing circulation within closed environments, or pulling air out of the environment with the addition of a fan duct for exhausting.
