

## Modular Patch Panels

### Patch Cord Organizers

UN-PCO Patch Cord Organizers keep patchcords neatly ordered on standard 19-inch racks. They are used with both the UNP600 and UNP500 modular patch panels.

Three versions are available: UN-PCO-C1 adds 24 plastic clips to organize cable running vertically; UN-PCO-C2 has metal distribution rings for cables on the front of the panel; and UN-PCO-C3 uses metal rings to organize cable both at the front and rear of the rack.

#### Applications:

- Telecommunications rooms, equipment rooms, main cross-connects, intermediate cross-connects, data centers

#### Specifications

| Product   | Rack Unit | Height           | Width           | Depth             | Packaging | Color |
|-----------|-----------|------------------|-----------------|-------------------|-----------|-------|
| UN-PCO-C1 | 2         | 8.89 cm (3.5 in) | 50.8 cm (20 in) | 11.43 cm (4.5 in) | 1/Pkg     | Black |
| UN-PCO-C2 | 2         | 8.89 cm (3.5 in) | 48.3 cm (19 in) | 9.53 cm (3.8 in)  | 1/Pkg     | Black |
| UN-PCO-C3 | 1         | 4.38 cm (1.7 in) | 48.3 cm (19 in) | 11.7 cm (4.6 in)  | 1/Pkg     | Black |
