APPLICATIONS

Use in data centers, the equipment room, and telecommunications room to provide racking, cable management, grounding, and power distribution for network hardware.

Superior Cable Management

Multiple tie-off points to organize cable.

Mates with most other models of racks and channels.

Hinged covers

Optional.

Gates store out of the way.

The NEXTFRAME® Equipment Rack is provided with vertical cable channels to structure and route cable efficiently. These racks are the answer to evolving requirements for handling, routing and organizing cable and optical fiber. Use in a typical cross connect/data center to house rack mount patch panels, cable organizers, hubs, routers and other network equipment.

19" Equipment Rack with 6" wide 'Z' Channels

Seven-foot cable management rack with 6" wide vertical cable management organizers in a single catalog number for ease in ordering. Use when maximum cable volume is required. Products are available in both black and clear aluminum finishes. Rack ships unassembled.
