

### **Overview**

ALSD1

The ALS1 are high output, very low current draw, dual channel siren drivers. They are designed to work with alarm panels with limited current capability.

### **Specifications**

- 6VDC or 12VDC operation.
- Two (2) channel operation - steady or yelp.
- Very low current draw.
- Parallel or series speaker wiring
  - 113 db @ 10' @ 6 Volts - 8 Ohms
  - 115 db @ 10' @ 6 Volts - 4 Ohms

116 db @ 10' @ 12 Volts - 8 Ohms  
 120 db @ 10' @ 12 Volts - 4 Ohms  
 Current draw range from .5 amp to 1.8 amp based on speaker resistance and supply voltage.

### **Board Dimensions (approximate)**

3"H x 2.5" W x 1.125" D
