

KRAMER

C-RVM/RVM

RCA Composite Video Cable

Kramer's RVM series cables are constructed of RG-59 cable with male RCA connectors at each end. They offer outstanding quality, durability, and high-performance for any composite video or mono audio signal.

FEATURES

- **Quality Construction** - Constructed from RG-59 cable for transparent performance with composite video signals.
- **High-Quality Connectors** - Molded connectors are yellow to match video connectors on typical equipment.
- **Varied Selection of Lengths** - Available in 3, 6, 10, 12, 15, 25, 35, 50, 75 and 100ft versions (0.9 to 30.5m).
