

## USB 2.0 Hi-Speed A/B Coiled Cable (M/M), 6 ft.

MODEL NUMBER: **U022-006-COIL**

### Description

The U022-006-COIL USB 2.0 Hi-Speed A/B Coiled Cable (M/M) connects your computer, laptop or other compatible USB-A device to a USB-B peripheral, such as printers and scanners. This six-foot cable supports data transfer rates up to 480 Mbps for both low- and high-speed devices, including multimedia applications.

The specially coiled cable takes up much less space than a regular six-foot cable. It also resists tangles and knots, making it convenient to store in your car or carry in your purse, backpack or laptop bag.

Premium foil and braid shielding delivers reliable, error-free signal quality and protection from EMI/RFI interference. Molded nickel-plated connectors ensure excellent conductivity. Integral strain relief ensures the cable and connectors last a long time. A rugged PVC jacket protects twisted 28 AWG data lines and 24 AWG power lines.
