

# **WLC99 Series**

## **Product Features**

- Short range White Light illuminator
- Distances up to 99' (60m)
- Angles 15°, 30°, 60°, 90°&120°
- Low power consumption (12W)
- Even illumination
- 3yearwarranty
- IP66weatherproof rating
- Built-in photocell Light on/off
- 12Vdc or 24VAC input

#### Who isiluminar?

illuminar (which means "to illuminate" in Spanish) is a specialist manufacturer and supplier of IR and white light illuminators and license plate recognition products. The owners have over 30 years combined industry experience. Our company mission is to supply high quality and reliable lighting and license plate recognition products to the CCTV industry, backed by unsurpassed customer service.

#### What is White Light?

White light is visible light. Visible light is advantageous in that it acts as a deterrent as well as providing additional lighting for color cameras.

All iluminar's white light illuminators are designed to provide superior visible lighting for CCTV systems. They are available with a range of angles to cover different ranges and scenes.

Supplied with an IP66 rating, they are vandal proof and can be used indoors & outdoors. The hardened housing provides protection from the harshest weather conditions and rapid temperature variations (-58°F to 140°F).

All of iluminar's white light illuminators have a built-in photocell and are supplied with a wall mounting bracket. They are all low powered with both 12Vdc and 24VAC models available, removing the requirement for additional power supplies as with other illuminators.
