

Visonic®

For a secure way of life

MCT-426 Wireless Smoke Detector

Features and Benefits:

- Up to 5 or 8 years battery life (depending on the battery type) and easy battery replacement
- Loud (85db) alarm sound at 3m (10ft)
- Sound and transmitted alerts (smoke, tamper, low battery)
- Audio and visual sensitivity degradation indicators notify when the sensor needs to be cleaned
- Simple wall or ceiling installation, with bracket
- Back tamper
- Fully certified by the most strict and demanding international standards such as EN 14604, EN 54-5 for safety products in Europe

The MCT-426 is a fully supervised wireless photoelectric smoke detector that is compatible with PowerMax® and other Visonic PowerCode™ wireless home security systems. Designed for a wide range of residential and commercial applications, this detector is easily installed and has a streamlined design to fit any internal décor.

Specifications:

Cover Range:	50 – 100 cubic meters (1770 – 3530 cubic ft.)
Battery type:	3V CR123A / CR17450 lithium
Battery Life Expectancy:	5 years for CR123A, 8 years for CR17450
Weight:	165g (5.8oz)
Operating temperature:	-10°C to 50°C (14°F to 122°F)
Operating environment:	Indoor
Dimensions:	120 x 58mm (2.3 x 4.7in.)
