

# Channel Bars

## 180 Series / 186 Series

**180 Series**

**186 Series**

### Channel Supports

**180 Series** Install 180 Series channel bars in suspended ceilings as an economical means of supporting loudspeaker assemblies. Pre-drilled holes provide easy installation in any type of protective enclosure or plaster frame. Models 180-2 and 180-4 are constructed of galvanized CRS.

**186 Series** 186 Series mounting rails provide quick and efficient installation of protective enclosures and mounting rings. These mounting bars feature an adjustable slot and sliding flat nut which allows for a wide range of enclosure or mounting ring positioning. 186 Series is ideal for use with Atlas Sound 75 and 76 Series mounting rings as well as 95 and 96 Series enclosures in 16" (406 mm) and 24" (610 mm) stud construction. Models 186-16 and 186-24 are constructed of galvanized CRS.

### Specifications

#### 180-2

Length 23 $\frac{3}{4}$ " (603 mm)

Weight .5 lbs. (.227kg)

#### 180-4

Length 47 $\frac{3}{4}$ " (1213 mm)

Weight .95 lbs (.431 kg)

#### 186-16

Length 18" (457 mm)

Weight .5 lbs. (.227kg)

#### 186-24

Length 26" (660 mm)

Weight 1.4 lbs (.635 kg)

### Architect and Engineer Specifications

The channel supports and suspension hangers described above are accessories, and their use is determined by the mounting method required and the baffle, enclosure, or package series selected. Refer to the Architect and engineer Specifications outlined on each component specification sheet.
