M-20
24bit-192kHz Wi-Fi Streamer

Operation:

1. Download the i East Sound Stream app from iTunes or Google Play.
2. Connect the M-20 to your sound system using the audio cables that are included with your M-20.
3. Open the Sound Stream app on your device. The M-20 provides voice audio instructions played through your sound system so please make sure your sound is turned on.
4. The M-20 will automatically find your wireless network and request a password. Type your password into the prompt box provided on your phone or device.
5. Press the WPS button on the side of your M-20.
6. The M-20 will provide a voice prompt "connected to wireless network" when your connection is complete.
7. Start streaming music directly from your music library or from one of the many streaming services where you hold a valid subscription.
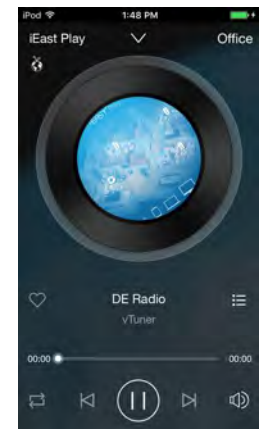

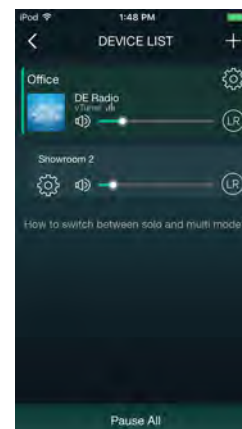

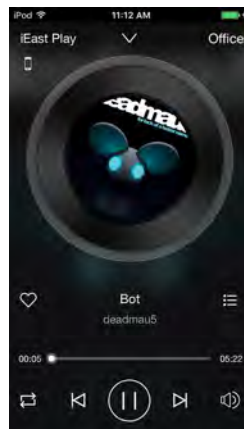

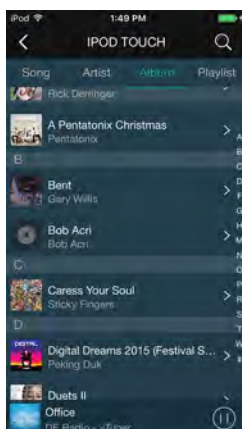

Open the Sound Stream app   Press the WPS button   Play music from your library or from music streaming services

Select music from songs, albums, artists or create your own playlist.   Your album art is displayed onscreen.
Select the V-tuner for 1000's of radio stations in practically any genera. Enjoy ultra hi-fidelity music anywhere
