

Opt-X® SDX Wall-Mount Enclosures

Small, Medium, and Large

APPLICATION

Opt-X SDX Wall-Mount Enclosures allow for inter-connect or cross-connect between cable and active equipment while using minimum wall space. The enclosure features and design allow for easy field termination of connectors, splicing, or pre-terminated plug-and-play solutions. The fiber enclosures are primarily used in controlled indoor applications, such as in entrance facilities, equipment rooms, and telecommunications rooms.

Small Wall-Mount

Medium Wall-Mount

Large Wall-Mount

SPECIFICATION

Opt-X SDX Wall-Mount Enclosures shall be available in multiple sizes to accommodate field connector termination, heat-fusion splicing, and plug-and-play MTP® cassettes for up to 288 fibers (LC). Large-size enclosures can be retrofitted in the field to a splice-only configuration for up to 576 heat-fusion single or 1728 Ribbon splicing. Enclosures can be oriented for left- or right-side patching to provide added flexibility. Adapter bulkhead shall accept Opt-X SDX Precision-Molded Adapter Plates, SDX Splice Modules, and SDX MTP Cassettes in LC, SC, ST, and MTP connectivity. Fiber cable management for routing, storage, and protection shall accept tight-buffered fiber and backbone cables. Enclosures shall be constructed of 16-gauge steel with a powder-coated black finish and be mountable on a wall. An optional key/lock kit shall be available to lock the service side door or both service-side and customer-side doors.

Page 1 of 3

FEATURES

- Dual doors (service side and customer side) with slam latches for ease of access
- Low-profile (depth), small-size enclosure minimizes protrusion from the wall
- Large-size enclosure can be retrofitted in field for splice only enclosure (accepts up to 24 splice trays)
- Accepts SDX Adapter Plates, Splice Modules, MTP Cassettes, and Splice Trays for multiple solution capabilities
- Removable cable entry/exit grommets allow for pre-terminated fiber trunk install, cable protection, and minimizes dust buildup
- Constructed of 16-gauge steel for enhanced durability
- Ground lug provided for added cable strain relief protection and grounding of armored cable
- Optional cable strain-relief mounting kit (installed on service side) protects incoming fiber cable
- Optional key/lock kit secures service-side door or service-side and customer-side doors
- Optional HDX-to-SDX conversion adapter bracket accepts HDX Adapter Plates and HDX Cassettes

DESIGN CONSIDERATIONS

- Enclosures are sold empty (unloaded)
- Capable of storing up to three meters of 900 µm tight-buffered fiber per adapter
- Enclosures are powder-coated black (custom white available)
- Enclosures include an accessory kit consisting of VELCRO brand cable ties, mounting screws, cable managers, port ID labels, blank plates and CAM lock (for splice-only enclosure)

STANDARDS COMPLIANCE & FIBER DENSITY

Meets or exceeds all ANSI/TIA-568.3-D requirements

PHYSICAL SPECIFICATIONS

Dimensions:

- See page two

Materials:

- Enclosures: 16-gauge steel, powder-coated black, white logo
- Cable entry/exit grommet: santoprene

OPT-X® SDX WALL-MOUNT ENCLOSURES & ACCESSORIES

Description	Part No.
Small Enclosure, empty with dual door, no lock	5WSML-02C*
Medium Enclosure, empty with dual door, no lock	5WMED-04C*
Large Enclosure, empty with dual door, no lock	5WLRG-12C*
Lock and key	5L000-KAL
Splice tray mounting hardware kit	SPLMT-HKT
Cable clamp kit (single grommet)	5RCMP-KIT
Cable clamp kit (multiple cable grommets)	5RCMP-KT2
HDX-to-SDX Adapter Bracket	HDXAD-ACC

* Contact Inside Sales for white colored option. Minimum order quantities and lead time may apply.
