

CISCO® XFP-10G-MM-SR COMPATIBLE 10GBASE-SR MMF XFP TRANSCEIVER MODULE

XFP-10G-MM-SR-LEG | [Quiktron](#)

FEATURES & BENEFITS

This Cisco XFP-10G-MM-SR compatible XFP transceiver provides 10GBase-SR throughput up to 300m over multi-mode fiber (MMF) at a wavelength of 850nm using a LC connector. Digital optical monitoring (DOM) support is also present to allow access to real-time operating parameters. Our transceiver is guaranteed to be 100% compatible with the equivalent Cisco transceiver. This easy to install, hot swappable transceiver has been programmed, uniquely serialized and data-traffic and application tested to ensure that it will initialize and perform identically. It is built to meet or exceed the specifications of Cisco, as well as to comply with multi-source agreement (MSA) standards to ensure seamless network integration.

- Functionally identical to Cisco XFP-10G-MM-SR
- High speed 10-Gigabit connectivity
- Transceiver type SR allows for connections up to 300m
- LC ports designed for use with Multimode fiber
- 850nm wavelength signaling
- Supports Digital Optical Monitoring (DOM)

General Specifications

• OEM Model: XFP-10G-MM-SR • Compatible OEM: Cisco

Technical Specifications

• Type: 10GBase-SR • Wavelength: 850nm • Media: Multimode fiber

Physical Specifications

• Product Dimensions: 0.3x0.5x2.5in • Product Weight: 0.2lbs

SPECIFICATIONS

GENERAL INFO

Color: Silver

Typical Applications: Multimode

Type: XFP Transceiver

Component Type: Transceiver Type SR

LISTING AGENCIES/THIRD PARTY CERTIFICATIONS

RoHS: Yes

DIMENSIONS

Height (US): 0.3in

Width (US): 0.5in

Product Weight (US): 0.2lbs

CORD INFORMATION

Connector Type End One: XFP

Connector Type End Two: LC

TECHNICAL INFORMATION

Fiber Capacity: 2
