

INTEL® E10GSFPSR COMPATIBLE 10GBASE-SR MMF SFP+ TRANSCEIVER MODULE

E10GSFPSR-LEG | [Quiktron](#)

FEATURES & BENEFITS

This Intel E10GSFPSR compatible SFP+ transceiver provides 10GBase-SR throughput up to 300m over multi-mode fiber (MMF) at a wavelength of 850nm using a LC connector. Digital optical monitoring (DOM) support is also present to allow access to real-time operating parameters. Our transceiver is guaranteed to be 100% compatible with the equivalent Intel transceiver. This easy to install, hot swappable transceiver has been programmed, uniquely serialized and data-traffic and application tested to ensure that it will initialize and perform identically. It is built to meet or exceed the specifications of Intel, as well as to comply with multi-source agreement (MSA) standards to ensure seamless network integration.

- Functionally identical to Intel E10GSFPSR
- High speed 10-Gigabit connectivity
- Transceiver type SR allows for connections up to 300m
- LC ports designed for use with Multimode fiber
- 850nm wavelength signaling
- Supports Digital Optical Monitoring (DOM)

General Specifications

• OEM Model: E10GSFPSR • Compatible OEM: Intel

Technical Specifications

• Type: 10GBase-SR • Wavelength: 850nm • Media: Multimode fiber

Physical Specifications

• Product Dimensions: 0.3x0.5x2.2in • Product Weight: 0.15lbs

SPECIFICATIONS

GENERAL INFO

Color: Silver

Typical Applications: Multimode

Type: SFP+ Transceiver

Component Type: Transceiver Type SR

LISTING AGENCIES/THIRD PARTY CERTIFICATIONS

RoHS: Yes

DIMENSIONS

Height (US): 0.3in

Width (US): 0.5in

Product Weight (US): 0.15lbs

CORD INFORMATION

Connector Type End One: SFP+

Connector Type End Two: LC

TECHNICAL INFORMATION

Fiber Capacity: 2
