

Precaution on Use of Screws

Enclosed are tapping screws to be used to install the TOA's rack mounting brackets and the blank bracket (MB-15B-BK only) to a unit.

Never use the enclosed screws in cases as follows.

- The unit's bracket mounting holes are tapped.
- Bracket mounting screws are supplied with the unit.

[Fixing the bracket at 3 points] [Fixing the bracket at 4 points]

Use the short screws (8 mm).

Use the long screws (14 mm).

Note: For more details, refer to the instruction manual attached to each unit.
