

## Premium 2 conductor Flexible Plenum Audio Cable Natural 1000ft

Comprehensive CVC-2TW/P is a twisted pair plenum audio cable. Made up of two #22 awg bare copper wires, with a # 26 awg tinned copper drain wire, the CVC-2TW/P is perfect for all audio applications requiring a plenum cable. An overall shield of aluminum mylar foil provides 100% coverage. CVC-2TW/P has a UL rating of CL2P/CMP and can be used without conduit. The 22 gauge twisted pair is perfect for carrying audio signals for pro-audio, sound systems, and recording studios. The CVC-2TW/P comes in 1000 foot put-ups and includes a ripcord and sequential foot markings to facilitate easy cable management and inventory control.

### Features

- Two 22 Awg Bare Copper Conductors
- Flexible Plenum Jacket
- CMP Rated
- 500 or 1000 ft put-ups

### Specifications

Conductor Quantity: 2  
Gauge: 22 AWG Stranded Bare Copper  
Conductor Colors: Black, Red  
Shield: 100% Aluminum Mylar foil wrap  
Impedance: 55 Ohms  
Capacitance: 25 between adjacent conductors; 45 between conductors and shield  
NOM Velocity of Propagation: 69%  
Bulk Lengths: 500/1000  
Jacket: Flex-Plenum  
Jacket Color: Natural  
Overall Diameter: .132"  
UL Rating: CMP/FT6  
Voltage Rating: 300V  
Temperature Rating: 75 deg C  
Weight Lbs: 15  
RoHS Compliant: Yes  
Warranty: Lifetime
