

## PT/SPT SERIES PHOTOCONTROL

### THERMAL, NON METALLIC HOUSING, WIRE-IN

#### KEY FEATURES

- Fixed or adjustable swivel base
- Heavy-duty thermal bi-metal switch
- UL | CSA Listed
- 30 - 45 second time delay
- 2000 watt rating
- Fail mode is ON

TE Connectivity's (TE) PT/SPT Series offers a durable control with an optional swivel base allowing maximum mobility for installation.

The PT/SPT Series controls combine the superior performance of the AT Series with an economical, yet highly durable, polycarbonate housing.

Controls include a heavy-duty bi-metal switch that provides a 30 - 45 second time delay. This virtually eliminates unwanted lamp cycling that could be caused by lightning, car headlights, or other sudden changes in ambient light level.

Although the Turn-ON level is pre-set at the factory, each PT and SPT control is furnished with an adjustable slide bar that allows field adjustment to satisfy specific needs. The SPT is also equipped with an adjustable swivel base to provide installation flexibility.

**Customers can count on consistent, high quality products, driven by TE's proven innovation and backed by our extraordinary customer support.**

TE's photocontrols can be used to safely control luminaries with incandescent, HID, LED, or compact fluorescent lamps.

TECHNICAL INFORMATION	
Switch	SPST thermal bi-metallic, Exceeds 5,000 ON/OFF operations
Fail Mode	ON (contacts normally closed)
Housing	Polycarbonate with UV stabilized window
Lead Wires	6", #14 AWG, rated 105°C (all other models)
Nipple	1/2" pipe
Nut	1/2" pipe, die-cast

SPECIFICATION	
Physical	Enclosure: designed to meet UL 773A
	Power consumption: less than 0.9 watts at 120 VAC
Temperature	Minus 40°C to plus 65°C at 96% RH
Load Rating	2000 Watt Tungsten 1900 VA ballast
Light Sensor	Cadmium Sulfide Cell
