Profile Series v.N1 Discontinuance Notice

Effective January 1, 2013, SARGENT will cease sales of the Profile Series v.N1 Integrated Wiegand lock. The Profile Series v.N1 discontinuation schedule will be as follows:

- **End of Sales (EoS):** Orders for the v.N1 will be accepted until December 31, 2012.
 - For existing jobs that have this product specified, please consider the Profile Series v.S1 Power over Ethernet lock or the PR100 Aperio wireless lock as alternatives, depending on the requirements for each opening. Please contact your ASSA ABLOY Door Security Solutions sales consultant if you require any assistance in selecting an alternative.
 - Please notify Dave Higginson (dhigginson@sargentlock.com) by December 31, 2012 if you anticipate any projects for 2013 where the v.N1 is specified and they will not allow any alternatives. This will allow us to plan accordingly in order to support the project.
 - The Profile Series v.N1 will not be included in the 2013 Integrated Wiegand price book. In addition, on January 1, 2013, the product will be removed from SargentLock.com and IntelligentOpenings.com. Associated documentation will be moved to the archive section of the web sites.
- **End of Support (EoS_p):** Technical and parts support will be available until December 31, 2014 (24 months after the End of Sales date), through the end of the warranty period of the last sale.
- **End of Life (EoL):** The End of Life for the v.N1 will be 12 months after End of Support (December 31, 2015). During the period between January 1, 2015 and December 31, 2015, support and spare parts will be provided as best possible. After December 31, 2015, there will no longer be any inventory of the product, and support services will be unavailable.

Please distribute this bulletin to everyone in your distributorship who specifies and/or purchases SARGENT Integrated Wiegand products. Insert this bulletin in the Integrated Wiegand section of your SARGENT full line catalog.
