

Description:

The fixed wall rack is designed for your smaller network applications. It can hold loads up to 150 lbs and easily installs to wall surfaces and backboards. The open frame design allows for easy maintenance and change of equipment.

Features:

- Constructed of high-strength 12ga steel
- 150 lbs. static load capacity
- Holes tapped 10-32
- Ships unassembled
- Available in black (other colors through special order)
- Includes 3/8" mounting hardware
- All components are RoHS compliant
